To Whom it may Concern

RE; Reference for Eric Rysdyk

Please accept this letter of reference for Eric Rysdyk. He has been with us for a little over two years now. In his stay with us he primarily completed the Building Permit AutoCAD floor plans, stair and building sections for the many apartments (approximately 15) and townhouse projects in this period.

His work ethic on these projects was always well received. Everything he did was done in a timely manner and his attention to detail was very much appreciated.

Unfortunately we have noticed a substantial downturn in our workload so we regrettably were left with no alternative but to lay Eric off. If work picks up in the future, we would be happy to rehire him.

Please don't hesitate to call me to discuss this reference letter for Eric.
